Sometimes i feel that life's too hard for me to  
understand  
I mean it's like everyday is something else it's just too  
much I'm just a man  
When i ask for help it seems like no ones there to lend  
a helping hand  
It kinda hurt when they say "I can't help you" when you  
know they ca  
I can make  
Everything I'm going through I know I know it's just a  
test

I've been lied on & talked about wich I had time to tell  
the rest  
Even if I had time I couldn't tell you everythin I've been  
through cause it's too much for me it's too much  
My mind is going crazy  
Gotta try to keep myself together gotta try to keep my  
mind off all the things that's hurting me so bad but it  
hurts  
Lord you gotta help me  
I know that I I can make  
I can make it
