I wonder how it feels to be loved
I wonder how it is to be touched
see all the others holding their hands
and I'm still alone with myself

Say that you love me
say that you care
I want you to love me
to kiss me and hug me
and I want you to never let go of me
(I want you to never let go)

Let it go, let it flow, let me feel free
I never want you to go
let it go, let it flow, let me feel free
I only want to be loved

I wonder what I have done wrong
I wonder what I could have done
eyes are just staring
why can't you see
I am who I am and no one else
Say that you love me
say that you care
I want you to love me
to kiss me and hug me
and I want you to never let go of me
(I want you to never let go)

Let it go, let it flow, let me feel free
I never want you to go
let it go, let it flow, let me feel free
I only want to be loved

I wonder how it feels to be loved
I wonder how it is to be touched
see all the others holding their hands
and I'm still alone with myself
