OK the day you beating me no day  
Bands a make her dance that's thousand dollar

AK get a full clip not a soundwave  
You kissed her in her mouth ask her how my dick taste  
You don't want no drama I'm worth a couple commas  
It's death before dishonor  
Last king come sign him all shit to be designer  
Extraordinary rhymer our bodies  
West west up hot temper  
Get wet up she give me  
Neck up she clean the mess up  
One false move death from a gesture  
Cash in the safe nigga I don't feel no pressure

[Verse]

She fuck Hermes and the hustle

New chick just to drag my mink  
New car just to ride around here  
Aviator crew we flies around here  
Hating on hood niggas that aint round here  
Bounce our balls got insurance on the beard  
Cars, rockstars dope boys at odds  
I done seen it all but it's back to these broads  
Hands clap like a nigga in the stadium  
Million dollar chain but I'm rocking 8 of em

I see you slipping boy don't make me pick your label

Nother trouble got me tripping like it's angel dust  
We just winning all the women on our table huh

King announcing that gangsta shit we mobbing  
We taking your dollar no white collar  
I pop pop wish a nigga would I promise
