95 like dat  
95 like dat  
95

95 stylin, straight shots, gold medallion  
Put your number on this paper, promise I'mma dial it  
Cute college chick, daddy was a doctor  
Word to the great Vonn, she datin a rapper  
Entertainer, athlete, she never after  
So I entertain her late night well after  
High 10 after, midnight his bedtime  
You could say I stole a heart, I just call it face time

No rush, just relax your mind  
You are now listening to sounds of a better rap  
Bands in drop, there's mosh pit in the lobby  
Girl so horny, that's my type of party  
No ties, mob shits, suits and ties  
Crap table, Vegas, vampire nights  
I marry you tonight just to say we did it right  
Waking up with regrets, roll over,

She be like: Why you never called me back?  
Sometimes you just be like that  
Can't promise the world but I could promise you half of  
that  
Sometimes you just be like that  
All the rumors you heard, I ain't got no time for that  
Shit, I ain't got no time for that  
And you ain't gotta cry, dry your eyes, we gon get  
through that  
Trust we gon get through that  
95 like dat

Reservations, call, serve a table  
Alligator, snake skin, purple label  
Polyester, black berretta, who do it better  
For my niggas caged up writing them letters  
Lower level, reporting live, channel 11  
No emergency but I'm in the 9/11  
Far settle, girl scream, a red fellow

Pull up on the scene, bumping on the instrumental

And you know it, know it  
Time flies when you're flying first class all the time  
And you know it, know it  
No time for the games, dollar signs on my mind

And you know it, know it  
Eye for an eye, young killa, just wanna stay alive  
And you know it, know it  
Gotta learn to live with regrets, I regret the times

You like: Why you never called me back?  
Sometimes you just be like that  
Can't promise the world but I could promise you half of  
that  
Sometimes you just be like that  
All the rumors you heard, I ain't got no time for that  
Shit, I ain't got no time for that  
And you ain't gotta cry, dry your eyes, we gon get  
through that  
Trust we gon get through that  
95 like dat

95 like dat  
95 like dat  
95 like dat

Litigations, black faces, lawyers, briefcases  
Agent, top notch, paid investigations  
Fired, off top, block shots Anthony Davis  
Rod the greatest, acres, no neighbors  
Do that so many times, hope you do better next time  
Think about a dog next time you drop a dime  
Better ride, so she rather fly  
Always aksing me the same thing all the time

Why you never called me back?  
Sometimes you just be like that  
Can't promise the world but I could promise you half of  
that  
Sometimes you just be like that  
All the rumors you heard, I ain't got no time for that  
Shit, I ain't got no time for that  
And you ain't gotta cry, dry your eyes, we gon get  
through that  
Trust we gon get through that  
95 like dat
