I live a better life
Catch me out, Every night
Meet her once, Maybe Skype
Plus I only f-ck them twice
Only rules that apply
We don't cuff them, Let them fly
If she think there's better things
That bitch in for a surprise
Light a candle, Prayer vigil
Another rapper dies
Trying to steal my flow
Must have thought I was blind
I see your videos
Youtube'n' lil hoes
Bitch ain't even Georgia code
That's your girl, I ain't know
Watching Belly on the iTunes
N-ggas barely on iTunes
Only moment is if I'm featured on it
I heard his rumors when I'm in the room
Just cuz a man starving
Don't mean he eat and drink the same water
Motha f-ckas got social problems
Online got ya feeling brave, Don't it
I'm paid homie
F-ck the myths, I'm the sh-t
Lyrical I can get
But what's the sense
When it's for cents, Double dollars
With a hit, Stop the bull shit
No cows walking, But she stupid thick
Ass like a donkey, Shout out Wiz
But I don't smoke
But you could still watch the Benz roll up, Hoe

Models on my phone
Super models at my show

Money on my mind at all times
And it's time for more
Looking at my watch
Oyster perpetual

Like what you see
But don't touch it hoe

Rolli on my arm, What it cost man
New deposit came in, Another 100 grand
The end is near, The bible says it is
So I'ma rep Young Money till the f-cking end

Models on my phone
Super models at my show
Money on my mind
Oyster perpetual
Don't touch it hoe

Rolli on my arm, what it cost man
New deposit came in, Another 100 grand
The end is near, The bible says it is
So I'ma rep Young Money till the f-cking end

Models on my phone
Super models at my show
Money on my mind at all times
And it's time for more
Looking at my watch
Oyster perpetual
Like what you see
But don't touch it hoe
But don't touch it hoe
But don't touch it hoe
But don't touch it hoe

Like what you see
But don't touch it hoe
