[Verse 1: Tyga]

(Unh) My Isis Goddess, a peach garden  
Sipping Merlot, beach bums, bumping Bob Marley, a  
reggae party  
Shirt Cavalli, dress highly  
Highly infatuated, spending what you call life savings  
Hi ladies, nice day ain't it!  
South France be my new lady, canvas face paintings  
If God were me, you'd be more jealous  
The horny  
I'd back track, hop on the right track with a new  
somebody  
Now let's back track two years, where I met you at  
Night life, popping bottles, acting like you wasn't  
impressed with that  
That shit, I do for you, I never lack  
Need that, got that, Never did I second guess  
Took you out that C-Class, put you in that SLS  
No more Southwest, now it's like private jets  
Now all you got is ex roommates  
Cause all you got now is too much room space, shoe  
space(ahhh)

[Hook]

Same page but a different day, everything sweet  
Peace till a nigga be down & out  
Same shit you said yesterday, can't take no more of  
your shit  
Cause I can do better without you  
I can do better without you(better without you, better  
without you)

[Verse 2: Tyga]

(Unh) Symbolic tattoos cover the scar  
Heart tell em love move  
Cause of you I'll probably never accept what's due,  
except what's due  
Exempt from them nights I could've been single too  
Moonlight dinner, dark denim  
How we losing, we was up in the ninth inning!  
The night's ending, attitude on a fire chariot  
Ain't too hilarious, find it embarrassing, you crazy

bitch!  
All I wanted was pom poms, hug & a kiss  
Thought you rooting for this team, saw you on some  
other shit  
Acting out publicly, fans recording the shit  
Why you can't play your part & act accordingly!  
I guess that's all me, rubbing off on me  
Rubbing off on you, now you got an ego too  
Tell her spread far like an eagle do  
I don't want nothing to do with you, I'm through with  
you

[Hook]  
Same page but a different day, everything sweet  
Peace till a nigga be down & out  
Same shit you said yesterday, can't take no more of  
your shit  
Cause I can do better without you  
I can do better without you(better without you, better  
without you)

[Outro]  
You never thought I'd do it, you never thought I'd leave  
you  
You told me you loved me, but I never believed you  
Your heart was false just like the words you said  
Your stupid ass, corny lines tryna fill my head  
Shit, caught up in your perfect world, you never heard  
me cry  
That's why you never expect to see me say goodbye  
You know I'm better off without you  
I can manage on my own, you can still have your  
perfect life  
You could have it alone, cause I'm better without  
you(without you, without you)...

[Hook]  
Same page but a different day, everything sweet  
Peace till a nigga be down & out  
Same shit you said yesterday, can't take no more of  
your shit  
Cause I can do better without you  
I can do better without you(better without you, better  
without you)
