[Chris Richardson]

mhhhhhhh

Walk a thousand miles

Just to see her (see her)

But she's far far away

And I'd do anything just to see her face

But she's far far away

Walk a thousand miles just to see her smile again

[Tyga - verse 1]

Sittin' on a plane

Reminiscing back when I made that mistake

I wish it never ended with a heartbreak

Now your heart broken, tears in ya face

Ask myself why, looking at the sky

If I could turn back I'd make it all right

Praying that you better but its still stormy weather

Don't wanna let go but the rain wont let up

Now you gone, still thinking bout you everyday

And I know feelings was hurt and you can blame me

but

I'm sorry for the games that I played (yeah)

But now it's too late

And now she'sâ€¦

[Chris Richardson]

Now she's far far away

And I'd do anything just to see her face

But she's far far away

Walk a thousand miles just to see her smile again

[Tyga - verse 2]

It's cold putting up a fight

Arguing back and forth through the night

Regardless what I said and I don't most of it

You know I really love you, this the realest goin' get

It take time to realize what you really wanna know

You was ready for it all but your feelings I ignored

I know my fault, I should've gave more

Now you're miles away and I'm miles on tour

Now it's drums playing, crowd singing

Light changing, wish you was here to witness all that
It starts fading
They say two wrongs don't make it right
And I was wrong and now it aint right

[Chris Richardson]
Cause she's far far away
And I'd do anything just to see her face
But she's far far away
Walk a thousand miles just to see her smile again

[Tyga - bridge]
Na na na nah
If I could turn back
If I could make it right
I'd do just that
If I could make it right
I'd do it all tonight
Hold you in my arms, with you I'd spend my life

Na na na nah
If I could turn back
If I could make it right
I'd do just that
(I'd do just that for you to)
I'd do just that
If I could turn back
(Come back here again)

[Chris Richardson]
Cause she's far far away
And I'd do anything just to see her face
But she's far far away
Walk a thousand miles just to see her smile again

[Bridge]
[End]
