## "First Time"

(feat. Pharrell)

*[Chorus:]*

*[Pharrell:]*

I know you wanna feel the girl (first time)  
now take it easy the first time  
first time, first time, first time, first time  
first time, first time, first time

*[Tyga:]*

first time, I aint trying to hurt you now  
but I think I'm in love for the first time  
top 9 certified  
but I think I'm love for the first time  
top 9 certified  
I think I'm love for the first time

*[Tyga - Verse 1:]*

First time I laid eyes  
I looked around, heaven's angel from the sky  
it must be a message from God  
cause you the only thing on my mind  
let me show you why  
tunnel of love let's float inside  
girl grab my hand now hold your ride  
take a chance for life, roll the dice  
next day we in paradise  
promise to be loyal when honest  
help out your family  
with a couple dollars  
I do my best for you  
cause you my shorty  
so rest your head on my shoulders  
it feels good, don't it baby

*[Chorus]*

*[Tyga - Verse 2:]*

I know you aint scared of tiger's  
I get around, they say my sex on fire (fire)  
do it all night, keep you smiling  
used to be a player but I'm retired

ugh, as I lay down right beside ya  
no shirt, it's kinda hard to be quiet  
she said hold me close never let go  
I got that good love girl, oh you didn't know  
uh, give ya kiss, ear to ya neck  
relax, rub ya back  
make it wet  
I know love have you going crazy  
but it feel good, don't it baby

*[Chorus]*

*[Pharrell - Bridge:]*

Hey young girl, irl-ir-ir-irl-irl (wassup baby)  
Hey young girl, irl-ir-ir-irl-irl (ever been in love)  
Hey young girl, irl-ir-ir-irl-irl (I know you wanna feel it)  
Hey young girl, irl-ir-ir-irl-irl

*[Chorus]*
