Lil Homie, everybody tryna get with you (get with you)  
Lil Homie, stay focused, got shit to do (got shit to do)  
Yeah, come on!

They say what don't break a nigga make a nigga  
I woke up out my dream, said I gotta get it  
This whole city full of thieves, gotta watch my pivot  
Cause on the block, niggas never seen good living  
Only lived in jail cells or prison  
Drive bys, little homies hit the store for liquor  
I gotta steer my life different, where to begin with?  
Mama told me go back to school, I said I'm finished  
There's only one way a nigga gonna learn:  
You gotta take risks and do things the hard way  
Stole the hall pass, now I'm running through the  
hallways  
Only thing in my memory from those days  
You couldn't save a nigga, even on a Sunday  
Monday, new day, shit still the same  
Gotta switch the rhythm up like Kwame  
When things changed, watch people do the same  
As I hear a voice sing:

Lil Homie, everybody tryna get with you (get with you)  
Come on  
Lil Homie, stay focused, got shit to do (got shit to do)  
Yeah, come on!

Big boy grown, can't leave the streets alone  
Wanna be a king, but you're too young for the throne  
Why you riding in the car that you can't afford?  
Can't move forward in the 4-door chrome  
All that cheap talk I never did  
My walk is Billie Jean, my shoes are never slip  
Notice how close he is, gold his goals that approachin'  
him  
They can't stop the win losing's not an option  
First place locked in, get my trophy ready bitch  
Turn your back on me only gon' leave you ?  
Fuck that bullshit I got common sense  
I'm ready for my limelight put my mic in hand  
They'll dissolve when the money's gone

So motherfucka don't appear when the money's home  
Lil' homie done grew into a big dog  
If you barking in my way you gettin' chewed on

Lil Homie, everybody tryna get with you (get with you)  
Come on  
Lil Homie, stay focused, got shit to do (got shit to do)  
Yeah, come on!

See your friends walking up and down your block  
Ain't got a penny-nenny-nenny-nenny  
Just picture yourself sittin' there on top  
A niggga straight winnin-in-in-in-in-in-in

Nigga straight winnin', you see how I did it  
Bottom to the top take 'em back to the beginnin'  
All my niggas winnin', you see how we did it  
Dreamt it now we live it  
Now we all winnin', me and my

Lil Homie, everybody tryna get with you (get with you)  
Come on  
Lil Homie, stay focused, got shit to do (got shit to do)  
Yeah, come on!
