[Chorus]

Why do we fight?  
Why do we argue?  
All through night  
When we should be pillow talking baby  
Make the wrongs  
All things aside  
Swallow our pride  
And just love each other all the time  
You got me, and I got you  
What else could really matter  
But lovin' that's  
What it's all about  
Till' death does us part

Dear princess, remember  
What I called you  
Markin' those calendar days away til' that moment I  
saw you  
And I fell in love  
From that very moment I saw you  
Glad I  
Played on the phone and dialed them numbers to call  
you  
Now I'm thinkin' about how  
That could go wrong  
You was so special to me like the music in this song  
From my heart  
I said till' death  
Do us apart  
Within  
Dated for only a month  
Or so  
How is this possible  
She, she got me stutterin  
My words beginning to slur  
As I say  
I love her  
But I'm lovin' it  
It feels so right  
When I'm  
Huggin' her

She sayin' the same  
She feelin' complete like  
Two way streets  
Ringin' my phone she never hear a beat  
That means  
I'm answering  
Fulfillin' her every need and desire  
Ya dream  
This is life with me  
Continuous shoppin' sprees  
When I'm on the road  
Even gave you all the security codes  
So baby  
Tell me, tell me

[Chorus]

Why do we fight?  
Why do we argue?  
All through night  
When we should be pillow talking baby  
Make the wrongs  
All things aside  
Swallow our pride  
And just love each other all the time  
You got me and I got you  
What else could really matter  
But lovin' that's  
What it's all about  
Till' death does us part

I got more to stay to you

I thought I was more to what we had  
Her secret stash  
Filled with bundles of emotions  
Now I'm startin' to notice  
All that shit was bogus  
All the dozens of roses  
Thinkin', you was my golden token  
Now I'm feelin' frozen  
Lookin' like my life is hopeless  
No human  
Should ever experience  
What I drove in  
Now my car is broken  
My engine hood  
I should have never left it opened  
Lookin' like I'm on E  
No fuel I can't even eat  
Don't even want to breath if you ain't close to me  
No friends

My only enemy is cupid  
How could you be so stupid  
Please tell me why love hurts  
Can you even hear me  
Can you even imagine  
If your arrow wasn't workin for weeks  
I don't  
Think so  
I'm just tryin'  
To think slow  
It just ain't me  
So please play the drumrolls  
And roll the red carpets out  
As I wait for you to return  
With an explanation  
So baby start explaining

[Chorus]

Why do we fight?  
Why do we argue?  
All through night  
When we should be pillow talking baby  
Make the wrongs  
All things aside  
Swallow our pride  
And just love each other all the time  
You got me and I got you  
What else could really matter  
But lovin' that's  
What it's all about  
Till' death does us part

[Speaking]

I hope you heard the whole song.  
It was from me to you.  
Somethin' special.  
I'm lovin' this music.  
But I wish you was here, wit me.  
To love it too.  
But it looks like we're goin seperate ways.
