One shot, bomboclat
Bitches jumping on my dick, hopping like it's hopscotch
Booty pop, my bitch don't wear that she prolly ass shots
I dont give a fuck, I fuck em all till they pussy ouch
Potty mouth, oochie wally, bang, bang then I'm out
Once upon a fucking time, had your bitch up in my house
Cooking grits and riding dick
Swear she the best chef around
Pop that pussy, now let me see you doo doo brown
I wanna rock, I wanna rock
Tell these bitch niggas it's they time of the month, time of the month
Niggas want beef but I eat that shit, eat eat everything well done
I'm so far in the clouds I can barely hear
All that shit you rocking, boy that was last year
GOAT's here, niggas steer my style like a stop deer
Pump fear
To you bitches heart, Suge without the beard
Man, all these new niggas weird
They all lining up to come and see the last king

I get money, I make money
I take money, them bitches want it from me cause I'm
I'm bout whatever, I'm bout whatever
I'm with whatever, man I do it, do it better
Two more shots, then I'm out
I'm a motherfucker and I got a potty mouth
I'm bout whatever man, I'm bout whatever man
I'm with whatever, man I do it, do it better

Man, I fucked your dime and now she's mine
2 Live Crew, put the pussy in my palm
She put on a nigga and make a grown man cry
Feeling bullshit, I dont pay you no mind
But whats your sign?
Gemini?
Scorpio, let me fuck from behind
However you want it, baby
Light the blunts, blunts and close your eyes
Real nigga doe, real nigga doe

Gotta freak bitch in the DBI, put me on doe
Came in the door, kicked in the door
Waiving the .44, put one, one in your blowhole
Man, your paper thin, you need to take some notes
Niggas steal my lines and say they don't, there go
another new quote
Im fresh off the boat, nigga let's toast
Young Money real, y'all shit just a hoax
Made a fairy tale, busy on a float
Why would I lie?
Forever under oath, I'm
So fucking frustrated with your lady
Get a flight, I send her home
Man my love is oh so tainted
If you fine you might get diamonds, if you a five you
might get nothing
I'm on my monsters, they from a moshpit
R-r-r-rock you like Nirvana
Man I be off Patron like its a holiday
Fucking with them finer things, pull up on your bitch
and say

I get money, I make money
I take money, them bitches want it from me cause I'm
I'm bout whatever, I'm bout whatever
I'm with whatever, man I do it, do it better
Two more shots, then I'm out
I'm a motherfucker and I got a potty mouth
I'm bout whatever man, I'm bout whatever man
I'm with whatever, man I do it, do it better

Man, I fucked your dime
Still in my prime
Young d, I'm freshest nigga on the line
Better man up, it's about to go down
Leave you with jaw-dropped, face on the ground
Let the rain fill the moats round my kingdom
Carved in the cement, star, pledge allegiance
I'mma let you leave em screaming
Dreaming just to get by
Girl you so fly, why you so high?
Two more shots, then I'm out
I'mma motherfucking pottymouth
I'm bout whatever, I'm bout whatever
Man I do it, do it better
All bad bitches in my house
I'm a motherfucker, fuck her then I kick her out
I'm bout whatever, I'm bout whatever
Man I do it, do it better

Cannibal, I eat you raw meat

I'm raw with beats
So scavenger with it, nigga look like Jaws with feet
You don't want it, bitch
Y'all niggas know I get gully, what you want?
Listen close, y'all don't hear how the beat get ugly
when a motherfucker come through?
Excuse me bitch
Please let me kill it just a little bit and let a nigga do
what he do
Movie shit, that tec make a niggas wanna vomit spit
You niggas already knew
She keep on fronting niggas, then I'm lighting up
another city
Got her fighting til they get to biting, they we getting
gritty
See the time and now a nigga climbing up another milli
Then we shining till a nigga blind them, up until it kills
me
Forth and back and my dying is a nigga til it pulls up on
the track
Then I'mma die sixty niggas til we pop off like we in the
wild west
When I finished giving you the crack whaaat?!

If you knew I'm in route to the crib just to park the
Bugatti at the house
Sin big and one of my bitches really turn her out now
Still everyone know I gotta potty mouth now
Shiiiit they got me doing it again
Back to bodying things and lots of screwing other
women
You can never stop the shit that I'm doing
And the way that we moving
Get it popping, never stopping, kill em in the end now
And I'mma get em to the point when I got em all open,
handling my business with em ha!
Trust me you don't wanna start cause you know its
torture!
Every single minute til I finish with em
And I knock shit down
Every time I come and then I lock shit down
Til I come up place niggas better drop that crown
Ever here, 'fore I pop you clowns
And I go erase niggas!
