Yea, yea,

Iâ€™m just dug and adore you
Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
Youâ€™re so scared wonâ€™t fell you
Is a thing I wanna show you
(Show you off, show you off)
Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
Youâ€™re so scared wonâ€™t fell you
(No one let it go out, yea)

That pussy man, is anytime
When I get in and I call
She said she could pick up a time
I know is helly, just get back in town
Iâ€™ve been in a minute down, damn and is going down
Swallow up all your blood, all the neighbour is watch
Litle prey, saying youâ€™re pretty know you get back a
lot
Ask from my best friends, hasnâ€™t heard go and watch
Everybody see you, when no damn heal, so doubt
Unless that that time, Iâ€™ve expect show gram
No keep each other in the dark, â€™cause the sun wonâ€™t
shine
Donâ€™t wanna rush you right, but that ainâ€™t far
But now is just vag, â€™cause

Iâ€™m just dug and adore you
Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
Youâ€™re so scared wonâ€™t fell you
Is a thing I wanna show you
(Show you off, show you off)

Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
You're so scared won't tell you
(No one let it go out, yea)

I see you walking on your body, getting ready for
someone
I just gotta know phone, unless your number
But I'm getting, 'cause that's I'm poiting
Hate to have your sound cause, friend many bitches
are annoying
No wanna road, tell me what you are doing
I got that down love for you, don't let it ruin
How about you come see alley like a brewing
If a focus is won't we got going when everybody else
doing
Friday, party like is your birthday
They only said thing is that we'll chance up on
Thursday
Got the top, Californian never raising
To feel your love is crazy basic

I'm just dug and adore you
Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
You're so scared won't tell you
Is a thing I wanna show you
(Show you off, show you off)
Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
You're so scared won't tell you
(No one let it go out, yea)

Is like you act like you are my life, I don't know you
(Where you come from?)
If I lie you today girl I won't eat that
I wanna take you warm and low
(Let me show you off)
To everywhere
And eventually I wanna take you down
Oh, yea

I'm just dug and adore you
Is a thing I wanna show you
(Show you off, show you off)

Is a lot I wanna tell you
(No doubt, no doubt)
Youâ€™re so scared wonâ€™t fell you
Is a thing I wanna show you
(Show you off, show you off)
Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
Youâ€™re so scared wonâ€™t fell you
(No one let it go out, yea)

Iâ€™m just dug and adore you
Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
Youâ€™re so scared wonâ€™t fell you
Is a thing I wanna show you
(Show you off, show you off)
Is a thing I wanna show you
(Show you off, show you off)
Is a lot I wanna tell you
(No doubt, no doubt)
Youâ€™re so scared wonâ€™t fell you
(No one let it go out, yea)
So, yea
