G E D prepare for launch  
In 3... 2... 1...

Welcomin' Tyga man from mars  
Possible most popular star  
VÃi monos he's getting to far  
Make a wish now and draw your card  
Hello miss space diva in the yellow  
I see you see I'm dream fellow  
Stay puff for me like pillows  
Marshmallows and a goal that's my flow  
I'm winnin' the prize for the deadest man alive  
Cause my brains on a page that the author didn't  
wright  
But they ain't using my name, leave nothing in your  
vein  
So take it from me safety's on, your lane  
Put your safety's on, get ready for a change  
And this right here, this heres no range  
For Christ sake look around it's space  
Pick a place let's move in today

I'll take you on a ride  
Just step inside  
Look around you hear the sound  
But close your eyes  
Imagine your not alive  
Feel free to fly  
Lift off the mission oh so go in time

So so shorty is you vibin'  
Oh oh oh you like shinin'  
Well well I can buy you diamonds  
Think about it naw shorty I'm lyin'  
Don't don't get to excited  
That's the beat and I'm just rhymin'  
Me so officially but no license  
I guess we space joyridin'

[GATA:]

Look

Ok buckle up buckle up time to take off

Put the a.c. on let it blow your face off  
Where we goin' I don't know  
But I guarantee you never been before  
So sit back  
And let me guide ya guide ya  
Cause I'm not like the dudes that ya used to buyin'  
F L Y that's what I am  
But you are my top pick, you the pilot  
Under my wings cause I doin' my thing  
On the t.v. yeah on the scene  
It's hard to believe that I'm livin' a dream  
Blinded by the lights and all this bling  
Now heres your choice you can stay or leave  
But make your mind up before the times up  
Your too late and why I can't state

I'll take you on a ride  
Just step inside  
Look around you hear the sound  
But close your eyes  
Imagine your not alive  
Feel free to fly  
Lift off the mission oh so go in time
