Feels like Suicide trust any lie and let me dream

Remote control to the Tivo waiting for the day I can look at my own videos that day came now I'm on the road on my way to my show heard my song on the radio my ego at a 104 homies like wait a go but they don't know what I'm feelin though outside fans screamin for my auto but inside this guys all alone.

Feels like Suicide trust any lie and let me dream

What happens waitin enemies close you can't tell face from face its like they all clones late night on the block sites comin down take me out my zone they hurt my funny bone I'm round the greatest so let the pressure come I'm not a savior so don't be expectin none collected a few checks now I'm responsible for yall but when it's all said and done

Feels like Suicide trust any lie and let me dream

Feels like Feels like Suicide..feels like Suicide; feels like feels like Suicide; feels like Suicide;.Don't stop believing in me;.they gon' stop believing me;.if I stop believing in me God stop my heartbeat

Feels like Suicide trust any lie and let me dream
