Park your whip leave the trash on the side
Cause once entering these gates you'll never be alive
Again, again please proceed to the right
You must be excited, the world's best surprise
and soon to be captured by your eyes
And no capturing, leave your cameras behind
The only thing you need is your body and you mind
You can drive to the entrance but I prefer to fly

Grab your ticket and get in the line
You got pees follow me
And heres a map to the rides
I'm colorblind when it comes to the night
But for now take this locating device
Eye for an eye get ready for the time, of your life
It's gonna be mighty nice
I'm instructor outta luck-tor and don't ask why
I almost forgot, man goodbye

I'd like to welcome you, all of you, to Tyga's world.
Where there is lots of things to do, and people to see.
You might see a flying dachshund or you might see
popcorn. Rot. Just playin. Enjoy your stay, boys and
girls, at Tyga's World!

You like what you see so far, right?
Awesome
Characters, Merry-Go-Rounds, jaws droppin'
Mind boggling
Kids jogging, Magic Carpets
Many choices, but not a option
Here you will spend the rest of your life
I'm Just Joking
Just Kidding, this will be home to many
For many centuries
Check out the goldfishes
They're all dead, but still swimmin

Oh You think you're so fearless?
I'll take you on another 'venture
So I'm more scarier than your dentist
It's called Grimace

A purple like substance used for licking spirits

Some can say it also chose the heron
Explosion fire off into nighttime
Getting closer
And I think we're getting closer
I didn't notice
I'm losin focus
Blood loosin
Blurry Motion
I'm movin
Oh shit

Now now now calm down calm down, We can't have
any accidents in the park here. But uhm I hope youre
having a good time, cause I no I am. But uhm we
haven't even gotten to the main attraction yet, boys
and girls. Read your map, and welcome. To Tyga's
World!

You scream! You scream!
You're making up a scene
You won't feel nothing
Pretend its just a dream
Dream that you're safe and sound to sleep
Cause this needle here is gonna put you to sleep
And I'm not being funny
I'm just following the money
Boss man say's I'm just working for him
You're soon gonna meet him
Just don't be afraid as his facial features look like a
pizza
Freddy Krueger, the movie, have you seen it?
Well this is sorta the same the doctor dreamin
And might try escaping
You would've got away if it wasn't for this nine inch
tazer
The torture isn't over
There's more
More !
More!
And more
Now give me your soul
And enjoy your stay at Tyga's World!

Haha I wanna thank you for leaving your soul tonight.
And um you guys have been a great audience and I
have been a great host
My name is Tyga, man. Wellâ€¦ Tyga Alien.
Haha and um I wanna thank you boys and girls once
again
Come back, To Tyga's World.
