[Chorus]

All my n-ggas that be hustling we up tonight  
And all my n-ggas that struggle we up tonight  
And all the girls around the world going out tonight  
Take a shot make toast we up for life, and we up

[Tyga - Verse 1]

Uh, just made 50 in a tri-state  
I spend it all cause when you young you can't pace  
I bet I double up, '99 Mase  
My ex said "I be missing you" Miss faith  
It takes 2, like Rob bass  
All of them pretty, but a rock in a hard place  
Meet a lot of girls, state to state  
Some one nighters, some I might date  
I'm a fat boy, slim skinny tatted face  
Brown Louie hard case, make your jewelry sleep safe  
On my king shit, like the middle east  
And the swagga stink like Kimchi  
I'm the sh-t ? for the money bags  
Like ? throwing dead presidents  
It's all good that you're living nice  
But when I get it all my n-ggas we gonna do it right

[Chorus]

All my n-ggas that be hustling we up tonight  
And all my n-ggas that struggle we up tonight  
And all the girls around the world going out tonight  
Take a shot make toast we up for life, and we up

And all my 9 to 5 n-ggas we up tonight  
And all my unemployed homies we up tonight  
Always doing wrong trying to make it right  
Take a shot make toast we up for life, and we up

[Tyga - Verse 1]

Like a new born in the cradle, uh  
Feet first like a baby born backwards (we up, we up)  
Tell the bank tell em time to re-up, re-up  
Damn, everything I see calling ?  
So many n-ggas copying my style  
Coming to america through a cloud

Just left Switz sold out crowds  
Uh, Vietnamese chicks with the big smile  
Pekingese puppy rapped in a beach towel  
lyrics courtesy of  
Killing me softly like Lauren Hill  
Built for love but love won't keep it real  
Can't waste time we up and dollar bills to my soul  
In god we trust  
I love mama when the keys but she down to f-ck  
Tell the bartender to fill me up, fill me up

[Chorus:]

All my n-ggas that be hustling we up tonight  
And all my n-ggas that struggle we up tonight  
And all the girls around the world going out tonight  
Take a shot make toast we up for life, and we up

And all my 9 to 5 n-ggas we up tonight  
And all my unemployed homies we up tonight  
Always doing wrong trying to make it right  
Take a shot make toast we up for life, and we up

yeah, we up, yeah, we up, ow, we up  
we up, yeah, oh, we up, ah, we up, we up

[Chorus]
