Girl you look so good, standing there in those cut-off jeans.

You know you bring me to my knees.

When you look at me, with those baby blues

You're all Iâ€™ll ever need

'Cause girl you complete me. Ooo youâ€™re like a dream come true.

Iâ€™d never be the same without you by my side.

Iâ€™m right where I want to be, me with you, you with me.

Ah please donâ€™t ever leave, 'cause girl you complete me.

The way the sunlight, shines on your hair,

You're an angel sent to me.

And when you say these words, ooo baby I love you

I just close my eyes and dream.

Girl you complete me, ooo youâ€™re like a dream come true.

Iâ€™d never be the same without you by my side.

Iâ€™m right where I want to be, me with you, you with me

Ah please donâ€™t ever leave, 'cause girl you complete me.

Girl you complete me, ooo youâ€™re like a dream come true.

Iâ€™d never be the same without you by my side.

Iâ€™m right where I want to be, me with you, you with me

Ah please donâ€™t ever leave, 'cause girl you complete me.
