[Verse 1]

Latley, aint got a clue  
What I'm goin through  
Everytime you walk away  
I guess it's my fault  
Cause no matter what you do  
I let you come back anyway

[Hook]

I blame it all on fantasy  
Mistaking lies for chemistry  
Aint got a choice but to let you walk  
Cause nothin was what I thought

[Chorus]

I thought that we was in love  
And you were the one  
And you'd have my back  
Down for anything  
Stick with me  
Through the joy and the pain  
How could you turn your back on us?  
I was so madly in love  
I know it got rough  
Never questioned what was left for us to save  
None left in my heart for you to break  
How could you turn your back on love?

[Verse 2]

Now I'm stuck  
In love alone  
You went and switched up the role  
Run away with my heart  
No I don't hear it beating  
Somebody call 911

[Hook]

My world just stopped  
And I can't breathe  
Tryna act real tough  
But you know I'm hurting

I just gotta give it up  
All my lovin didn't mean much

Chorus]

I thought that we was in love  
And you were the one  
And you'd have my back  
Down for anything  
Stick with me  
Through the joy and the pain  
How could you turn your back on us?  
I was so madly in love  
I know it got rough  
Never questioned what was left for us to save  
None left in my heart for you to break  
How could you turn your back on love?

Ooh ooh ooh oh  
Ooooh  
Ooh No Noooo  
How could you do it to me baby?
