(feat. The CO)

Is this just beginning  
or is this just a heartbeat  
Is this just a first breath  
or is it just second chance

Is this just a moment  
Why we keepin' secrets  
Hold on till you taste it  
Hold on till you feel it

I don't want to leave this heart alone  
I just want to go wherever you go

I just want to come back, pick it up oh  
it's love that we're fighting for  
come back and pick it up with you (x2)

I know we're getting closer  
This could be forever  
Please tell me you see it  
Tell me you believe it

Is it just a heartbeat  
Is it just heart beat beat (x2)

I don't want to leave this heart alone  
I just want to go wherever you go

I just want to come back, pick it up oh  
it's love that we're fighting for  
come back and pick it up with you (x2)
