In the middle of the night she calls my name
I swear I hang on every word
Her voice like lightning and thunder
It's her spell I'm going under
in the middle of the night she calls my name And it
feels so good
When I'm in her arms
Like a child
Who safe from harm
I don't wanna
I don't wanna
I don't wanna miss this
I don't wanna
I don't wanna
I don't wanna mess this up
I see the sun set down on your smile
This is where I lay my fears back down
You're the song that I'm singing
You're my end and beginning
I see the sun set down on your smile
And you save me now
Like you saved then
You showed me how
To feel again
I don't wanna
I don't wanna
I don't wanna miss this
I don't wanna
I don't wanna
I don't wanna mess this up
