I see you moving like you're hot on fire
You're rhythms louder than a southern choir

Cover the children's eyes
You're making young men wise
And all the gentleman are wishing they could tell you
sweet lies

Left, right, as you move
You're a funky rhythm with a dirty groove
There is no way you can loose
That shake, shake on the floor
With the hip-hop feeling and a Latin roar
You have us begging for more

With every beat, you know our hearts have skipped
But you just smile as you bite your lip

Cover the children's eyes
You're makin' young men wise
and all the women just stop and roll their eyes.

Left, right, as you move
You're a funky rhythm with a dirty groove, yeah
There is no way you can loose
That shake, shake on the floor
With the hip-hop feeling, and a Latin roar
You have us begging for more

There she goes
There she goes again

Left, right, as you move
You're a funky rhythm with a dirty groove, yeah
There is no way you can loose
That shake, shake on the floor
With the hip-hop feeling, and a Latin roar
You have us begging for more (x2)
