A Girl like me can be so dramatic
World premier something like a classic
If you love me baby
Then I like shining
The pink and the yellow ones
I like diamonds
This is how I know it ain't temporary
I'm a type of girl you'd play to marry
I know you want to
But what's holdin you
Cryin at my door saying you're so confused

My heart, my love, my time
It's more precious then you'll ever find
Someone so true so nice
And this way you can stay for life

Baby I could be your rockstar (rockstar)
And we'll shine bright like the sun (baby)
Your rockstar (rockstar)
And I'll be your only one
World adventure
We can go far (go far)
Show me it's for real
Put that rock on me (rock on me)
And that's goin' close the deal
I should be your rockstar, rockstar
Your rockstar, rockstar baby
Rockstar, rockstar
I should be your rockstar, rockstar

A girl like me can be hard to touch but
If you put me on baby I'm good love
I'll be your angel, you're protection
I'll give you all of my affection
I can't stay if you try to string me
Give me all your love boy don't be stingy
I like glittering and I like shining
Only the forever girls get their diamonds

My heart, my love, my time

It's more precious than you'll ever find
Someone so true so nice
And this way you can stay for life

Baby I could be your rockstar (rockstar)
And we'll shine bright like the sun (baby)
Your rockstar (rockstar)
And I'll be your only one
World adventure
We can go far (go far)
Show me it's for real
Put that rock on me (rock on me)
And that's goin' close the deal
I should be your rockstar, rockstar
Your rockstar, rockstar baby
Rockstar, rockstar
I should be your rockstar, rockstar

You know this has been going on for a while now
And I think it's time we take it a little further
Need you to put that rock on me
Ladies tell him put that rock on me
I'll be that girl, give you the world
But you gotta put that rock on me
Baby I could be your rockstar (rockstar)
And we'll shine bright like the sun (baby)
You're rockstar (rockstar)
And I'll be your only one
World adventure
We can go far (go far)
Show me you're for real
Put that rock on me (rock on me)
And that's goin' close (seal) the deal
I should be you're rockstar, rockstar
You're rockstar, rockstar baby
Rockstar, rockstar
I should be you're rockstar, rockstar

I should be you're rockstar, rockstar
You're rockstar, rockstar baby
Rockstar, rockstar
I should be you're rockstar, rockstar
I should be you're rockstar, rockstar
You're rockstar, rockstar baby
Rockstar, rockstar
I should be you're rockstar, rockstar
