Uh-Oh... Oh yeah,
Unbreakable, yeah.

Started out with little things you texted me
Talking on the phone till we're both asleep
I just wanna spend my life with you and
Show you how to make a dream come true

I'll do damn near anything you ask me
Hold you down so you can let the past be
Found me someone who was positive
Came along and put the hurts amiss

It's unbreakable
I'll never let it go
One thing some people can't see at all
It's unbreakable
I'm so emotional
Cause I know you'll catch me if I ever fall

It's unbreakable uh-oh, uh-oh [x2]
It's unbreakable, it's unbreakable
I'm never gonna let you go

Boy it's like Jekel and Hyde with me
Just fell in love with me at full speed
You're the soldier I been waiting for
Give me everything I need therefore

I will do anything to protect your heart
And then continue this way from the very start
Used up pass my satisfaction baby
Got ya loving, I go half way crazy

[x2]This how love is supposed to be
Still together, Happy 10 anniversary
It's forever and thats how long you'll stand by me
Heres how the story ends, happily ever after

It's unbreakable
I'll never let it go

One thing some people can't see at all
It's unbreakable
I'm so emotional
Cause I know you'll catch me if I ever fall [x2]

It's unbreakable uh-oh, uh-oh [x2]
It's unbreakable, it's unbreakable
I'm never gonna let you go

It's unbreakable
I'll never let it go
One thing some people can't see at all
It's unbreakable
I'm so emotional
Cause I know you'll catch me if I ever fall

It's unbreakable uh-oh, uh-oh [x2]
It's unbreakable, it's unbreakable
I'm never gonna let you go

[x2]This how love is supposed to be
Still together, Happy 10 anniversary
It's forever and thats how long you'll stand by me
Heres how the story ends, happily ever after
