[Verse 1]
I knew from the start
That this would be an uphill climb
But I did it anyway
Hoping a change of heart
Would somehow appear and we'd be okay

[Hook]
I must of been asleep making deciscions
I woke up feeling different
It wasn't what I was asking for
Said we got potential of forever
But still we're not together
Don't know what I'm waiting for
When I know that it's all...

[Chorus]
Wishful Thinkin
That's all it ever was
Just a fictitious love
Wishful Thinkin
I want to live back on earth
Cause in the clouds I keep getting hurt
I'm not gaining a thing
Living inside of my dreams
Of what I thought we would be
It was just
Wishful Thinkin
Wishful Thinkin, got me stuck

[Verse 2]
Stuck between a wall and rock
Cause I still want you even though
You pulled a hit and run
Now it's gone too far
Our hearts been hoping for too long
That one day will come

[Hook]
You would change up your decision
To make this love official

Am asking for just a little more
Said we got potential for forever
But still we're not together
Don't know what I'm waiting for
Cause all it was...

[Chorus]
Wishful Thinkin
That's all it ever was
Just a fictitious love
Wishful Thinkin
I want to live back on earth
Cause in the clouds I keep getting hurt
I'm not gaining a thing
Living inside of my dreams
Of what I thought we would be
It was just
Wishful Thinkin
Wishful Thinkin, got me stuck

[Bridge][[2x]]
As of right now
I'm making some changes in my life
Loving you is all wrong
But I look for ways to make it all right
Got to wake up, wake up, wake up
It's time I let this go
Wake up, wake up, wake up
I got to let you go

[Chorus]
Wishful Thinkin
That's all it ever was
Just a fictious love
Wishful Thinkin
I want to live back on earth
Cause in the clouds I keep getting hurt
I'm not gaining a thing
Living inside of my dreams
Of what I thought we would be
It was just
Wishful Thinkin
Wishful Thinkin, got me stuck
