Do you remeber the day that we first met
I wasn't looking for anything
You asked if I had a man said no it began
Been amazing ever since

Never thought I'd ever get a change at happyness
Baby since we've been together
I've fallin' in love all over again

That's why I say yess too anything you need
And yess your where I want too be
Don't you know I love you so
Your everything I need and more
I never want too let you go
Baby boy I love ya

Yess too anything you need and
Yess your where I want to be
Don't you know I love you so
Your everything I need and more
I never wanna let you go
Cause yess it's you that I adore

Now some time has come by
And boy how it flies when your not looking for anything
I say my prayers late at night you stay by my side
Used too be afraid of the love scene
But now that I know better than too run from how I feel
Baby were in this together
You carry my heart and soul with care

I'll always say

Yess too anything you need
Yess your where I want too be
Don't you know I love you soo
Your everything I need and more
I never wanna let you go
Baby boy I love ya

Yess too anything you need and

Yess your where I want too be
Don't you know I love you soo
Your everything I need and more
I never wanna let you go
Cause yess it's you that I love

Break it down

Looove it's what you've givin me
Ever since the first time you layed eyes on me
And your lips said hiii
And I had butterflies deep inside
And forever that's why why

[Chorus x2:]

I'll say yess too anything you need
And yess your where I want too be
Don't you know I love you so
Your everything I need and more
And I don't want too let you go
Baby boy I love ya

Yess to anything you need
Yess your where I want to be
Don't you know I love you so
Your everything I need and more
I never wanna let you go
Cause yess it's you that I adore

Yess to anything you need
Yess your where I want to be
Don't you know I love you so
Your everything I need and more
I never wanna let you go
Baby boy I love ya

Yess to anything you need
Yess your where I want to be
Don't you know I love you so
Your everything I need and more
I never wanna let you go
Cause yess it's you that I adore

Looove it's what you've givin me
Ever since the first time you layed eyes on me
And your lips said hiii
And I had butterflies deep inside
And forever that's why why
