Well I loved my aunt  
But she died  
And my uncle Lou  
Then he died

I'm searching for something which can't be found  
But I'm hoping  
I still dream of dad  
Though he died

Everything dies  
Everything dies

My ma's so sick she might die  
Though my girl's quite fit she will die

Still looking for someone who was around

Barely coping  
Now I hate myself  
Wish I'd die

Everything dies  
Everything dies  
Everything dies  
Everything

(No why)  
Oh god I miss you  
(No why)  
Oh god I miss you  
I really miss you

(no no no no)

Everything dies  
Everything dies  
Everything dies  
Everything
