My Farewell

Now i know i should go  
She left me, left me here  
Im lost without you, you ended this day  
The day i wished that never came, im lost without you

Let this paper be my ticket  
A oneway ride to nowhere  
For i have no word, this is my goodbye  
Im lost without you, you ended this day  
The day i wished that never came, im lost without you

Im lost without you, you ended this day!  
The day i wished that never came, im lost without you!

Without you! without you! without you oh!
