Beautiful - yet dangerous
Thermogenic luminous
Like a moth drawn to a flame - i'm the same
All cremated equally

As a spark - still i knew
I'll be lured - be consumed
She a pyre - incarnate - incinerate
An inferno turned to flesh

You are the first will be my last - will be my final words
Said she - ah - pyretta blaze
You are the first will be my last - will be my final words
Said she - ah - pyretta blaze

Say the words - i long to hear
Pinch bite kiss suck lick and sear
In a pyromantic way - i'm her slave
Living for her to ignite

You are the first you'll be my last - will be my final
words said she - ah - pyretta blaze
You are the first will be my last - will be my final words
Said she - ah - pyretta blaze
You are the first will be my last - will be my final words
Said she - ah - pyretta blaze
You are the first will be my last - will be my final words

Said she - ah - pyretta blaze
Said she - ah - pyretta blaze
Said she - ah - pyretta blaze
Said she - ah - pyretta blaze
Said she - ah - pyretta blaze
