This wont be enough
All of our conclusions
Silence pulls us further
But we both have much to say

But words are like knives
They will cut us deep
Who will survive?
We don't want to see
... (We don't want to see)

Reconcile...
Leave it all behind
Tell me what you want
'Cause I wont mind

This will take some time
I'm willing to compromise
Put aside the pride
And put the bottle down

One word and I will be relieved
Talk back it's just fine with me
One word and I will be relieved
Talk back it's just fine.

Reconcile...
Leave it all behind
Tell me what you want
'Cause I wont mind
... (I wont mind)
(Repeat)
