you're giving me a rush, rush  
everytime that you come around  
and when we touch, touch  
i can't get enough

you're giving me a rush, rush  
everytime that you come around  
and when we touch, touch  
i can't get enough

tell me all your secrets  
i wont tell a soul  
i'll keep it on the low

just tell me what you do  
that makes me wanna lose control  
we got a special thing  
can't let no body come between

i know you feeling  
hope you're feeling the same way i feel

they'll never understand the way i feel  
wonder why we're so affectionate  
why, why  
just tell them that it's human nature

you're giving me a rush, rush  
everytime that you come around  
and when we touch, touch  
i can't get enough

you're giving me a rush, rush  
everytime that you come around  
and when we touch, touch  
i can't get enough

it don't matter who's around  
or where we are  
baby it feels like we're alone  
you take me places no one's ever taken me befpre

you aint gotta say it (you aint gotta say it)  
cause i know what you're gonna say  
baby can you send it  
just rush (rush) your love right away

they'll never understand the way i feel  
wonder why we're so affectionate  
why, why  
just tell them that it's human nature

you're giving me a rush, rush  
everytime that you come around  
and when we touch, touch  
i can't get enough

you're giving me a rush, rush  
everytime that you come around  
and when we touch, touch  
i can't get enough

take me  
away from here so far away  
baby  
something about the way when you  
touch me  
you make me feel so free

oohhh you give me a rush, rush  
everytime that you come around  
and when we touch touch  
i can't get enough

you're giving me a rush (rush)  
everytime that you come around  
and when we touch touch  
i can't get enough

you're giving me  
you're giving me
