I thought missing you Was only for today  
I thought needing you would go away  
Why do I see you in everything I do  
Why does the sunshine remind me of you

I can't go on baby The feeling is lonely  
I can't go on baby feeling I need you in my life  
I can't go on baby The feeling is lonely  
I can't go on baby feeling I need you in my life

Is there anyway  
You could love me once again  
Gotta find a way to bring back my best friend  
I'll sing a song for you  
With the sweetest melody  
Please tell me I'll find my baby  
Cause i can't go on.. no no

I can't go on baby The feeling is lonely  
I can't go on baby feeling I need you in my life  
I can't go on baby The feeling is lonely  
I can't go on baby feeling I need you in my life

You make me feel  
Like I an do anything  
Now I'm half the man without my baby

I can't go on baby The feeling is lonely  
I can't go on baby feeling I need you in my life  
I can't go on baby The feeling is lonely  
I can't go on baby feeling I need you in my life

[Fade out..]
