Album: Taking Forever

Been searchin all my life just to find you  
In love with something about you  
My soul feels empty without you  
Where you've been hiding

So hold-a-me follow me come to me bet on me come  
beside-a-me and talking toxic

What's your name, your claim to fame GIRL  
You make me feel like heaven  
Intoxicate me on your game GIRL  
Make me wanna ball till seven  
I'm fascinated by your ways GIRL  
There's no way I'm leavin  
Voluntarily violate me GIRL  
Show me what I've been missin

I will never find another girl like you that looks so grand  
I wanna be that one to hold your hand  
I hope to be the one to change you understand to  
overstand  
But I will have you live to see true love a-one day

I wanns be be that special light that shines just like the  
northern star  
That way you'll know just where you are  
Fantasize feelin you hold me tight don't let me fall too  
far  
So I will know you will live to see true love a-one day

What's your name, your claim to fame GIRL  
You make me feel like heaven  
Intoxicate me on your game GIRL  
Make me wanna ball till seven  
I'm fascinated by your ways GIRL  
There's no way I'm leavin  
Voluntarily violate me GIRL  
Show me what I've been missin

So hold-a-me follow me come to me bet on me come  
beside-a-me and talking toxic  
So hold-a-me follow me come to me bet on me come  
beside-a-me and talking toxic

What's your name, your claim to fame GIRL  
You make me feel like heaven  
Intoxicate me on your game GIRL
