Hurry up and give your lovin' to me
Right now I need your body near me
Girl, you need to be right here with me so

Hurry up and give your lovin' to me
Right now I need your body near me
Girl, you need to be right here with me so

Girl, I'm feelin' so alone by myself in this big home
Wishin' you were here with me
Decided to try my luck, by callin' you up
Hopin' you can take me up out this misery

As time passed me by, I'm askin' myself why
Am I lyin' by myself, so that's good for my health
Which all the more reasons that you should be
Right here baby, right now baby

Hurry up and give your lovin' to me
Right now I need your body near me
Girl, you need to be right here with me so

Hurry up and give your lovin' to me
Right now I need your body near me
Girl, you need to be right here with me so

I'm starin' out my room door, twittlin' my toes
Huffin' and puffin' 'cuz I'm bored
Said it's been about an hour, think I'll take a shower
Couldn't fall asleep playin' Gameboy

I'm sick of lookin' at the ceiling, girl, I need a healin'
Callin' on you 'cuz you know what to do
Which all the more reasons you should be
Right here baby, right now

Hurry up and give your lovin' to me
Right now I need your body near me
Girl, you need to be right here with me so

Hurry up and give your lovin' to me
Right now I need your body near me

Girl, you need to be right here with me so

Said my doctor says that I don't need to be alone by myself

I need someone to watch over me

Said my problem could get worse if I stay at home in this bed

If you're not lying next to me

See you're my medicine, which I will be here again

And a simple touch from you

Girl, this is an emergency, use a sense of urgency

Please come and see about me

Hurry up and give your lovin' to me

Right now I need your body near me

Girl, you need to be right here with me so

Hurry up and give your lovin' to me

Right now I need your body near me

Girl, you need to be right here with me so

Hurry up and give your lovin' to me

Right now I need your body near me

Girl, you need to be right here with me so

Sex one, one, I'm callin'

Sex one, one, I'm callin'

So what's up

You gon' come over here and see about me or what

Sex one, one, I'm callin'

Sex one, one, I'm callin'

Baby I feel like I'm dying

I need you here right now

Sex one, one, I'm callin'

Sex one, one, I'm callin'

And I know it's a beautiful drive

But if you come over right now I promise you won't

regret it

Sex one, one, I'm callin'

Sex one, one, I'm callin'
