This is for all the love makers
Sit back and relax and let me take you there

It's 3 o'clock in the mornin'
And there's only one thing to do
Girl, your body's crazy layin' next to mine
I try my best to keep my cool

But the temperature's steady risin'
'Cause I'm all alone with you
And your sexy ways are so invitin'
Damn, I wanna give it to you

Baby, come and take my hand
I just wanna freak you
Girl, I got what you want, now it's time for you to
Climb up on top of me

Girl, I want you on top of me
I got what your body needs
There's a vacancy in ecstasy
And I'm gonna take you there

Girl, I want you on top of me
I got what your body needs
Yeah, yeah, yeah, yeah, yeah, yeah

Can I get a sample of you, baby?
Girl, there's somethin' I can guarantee
That you won't be cravin' lovin' for a while
'Cause I'm gonna give you all of me

I want you to bust on top of me
I wanna feel the thrust of your lovin', baby
I want you to tell me when I hit the spot
Girl, I'm tryin' to make it hot

Baby, come and take my hand
I just wanna freak you
Girl, I got what you want, now it's time for you to
Climb up on top of me

Girl I want you on top of me
I got what your body needs
(Yes I can do what I can do with you, baby)
There's a vacancy in ecstasy
And I'm gonna take you there

Girl I want you on top of me
I got what your body needs, yeah
There's a vacancy in ecstasy
And I'm gonna take you there

I came here to please your body, baby
I know I'll satisfy your every need
All you have to do is trust me
Girl, I'll take you to ecstasy, yeah

Girl I want you on top of me
I got what your body needs

(Girl I want you on top of me)
But there's only one way that I want it
(I got what your body needs)
I want you naked and on top of me
Forever baby, baby, yeah, babe
I want you, my baby

(Girl I want you on top of me)
Girl I'm going to give to you like you never had it before
(I got what your body needs)
Oh, no, no, no, no, no, oh

(Girl I want you on top of me)
I want you, babe 'cause I need you babe
Everything you are
I wanna drive you crazy
(I got what your body needs)

Come in my arms, let me take control
'Cause I'm about to take you there
And I know, I know what I'm doin', baby, my baby
All them other men you had before me
You're gonna forget about all that experience
