Let me start by sayin' that you're the one  
'Cause this is the first time I felt like this player's done

You're the only number that I dial from them other  
chicks  
You're the only sex I'm gettin' now, ain't that a trip  
But it don't matter 'cause you're in it and it don't matter  
but then I get it  
'Cause you're the only one

I'ma be good with just one girl  
One girl, that's all I need  
I'ma be straight with just one crib  
And two whips 'cause I'm grown now, that's all I need

Is one ghetto girl to make my baby's sleep  
And one ghetto girl I'm shakin' all of my chicks  
That's why I'm down on one knee with one ring  
Baby all I need is one

Ain't nothing gonna stop me from lovin' you  
And wifein' you, spendin' all my life with you  
Baby, I'm so committed  
This one on one I'm with it, it's so damn good

All the sex you want without no hat imagine that  
Got a real nigga that's gon' have your back, imagine  
that  
That's just the way it is, and that's just how it's gon' go  
And you gon' be that one, girl

I'ma be good with just one girl  
One girl, that's all I need  
I'ma be straight with just one crib  
And two whips 'cause I'm grown and that's all I need

Is one ghetto girl to make my baby's sleep  
And one ghetto girl I'm shakin' all of my chicks  
That's why I'm down on one knee with one ring  
Baby all I need is one

Girl, I ain't gonna front about it

Down and tell the truth about it, way gone  
Ain't nothin' I won't give up just to make you that one  
Baby, that one girl

One step, one breath  
One love, one name

So it's one me  
One ring, one church  
One preacher  
One choir, two little words

I'ma be good with just one girl  
Just one girl, that's all I need  
I'ma be straight with just one crib  
And two whips 'cause I'm grown and that's all I need

Is one ghetto girl to make my baby's sleep  
And one ghetto girl I'm shakin' all of my chicks  
That's why I'm down on one knee with one ring  
Baby all I need is one

One girl, one girl  
Baby all I need is one  
One girl, one girl  
Baby all I need is one

One me, one ring  
One church
