Yeah.. Whatchyall wanna do?..  
At you one more time know what I mean?  
But this time, you aint gonna be makin  
no more promises

Don't make promises  
that you cannot keep  
Don't say things that you don't really mean  
Don't make promises (To me)  
that you cannot keep  
Don't say things that you don't really mean

I gave you the world  
and you tried to give it back  
tell me what is going on  
there was nothing wrong  
with you lovin' me right back  
then I turned around and you're gone

You told me that your love was real  
and I and I believed you I believed you  
now I'm convinced that we don't feel the same  
cause you're so far away, and I miss my baby so..

Don't make promises (to me)  
that you cannot keep  
Don't say things that you don't really mean  
Don't make promises (oh no)  
that you cannot keep  
Don't say things that you don't really mean

There's no other girl  
who I'd let take advantage  
of all my time and energy  
You claimed you loved me girl  
then you creep behind my back  
I thought we were meant to be

You told me that your love was real and now

and I believed you, I believed you  
now I'm convinced that we don't feel the same

and you're so far away, and I miss my baby so..

Don't make promises  
that you cannot keep  
Don't say things that you don't really mean

*[Rap]*

Yo yo you got me heated  
but I stay undefeated cause I  
can't take the bull what what cha gon do  
what I brings it on  
forget the clones it's all bout me  
now I'm showing off getting off  
blowing freaking minds off  
you're pretty don't make me flip 'cause you're slippin'  
intermission I'm ever ready serving whippings  
it's like - oh no what you lying bout D.L. - is all out  
you can't get with it so quit  
you're illigit no doubt bout it word is bond  
I'm lethal can't nothing get past me but weak skon  
I remain jiggy with the illiest flow  
so niggas wise up and act like you know  
you tried to play me Shelene ain't havin it  
Tyrese aint havin it  
so sing your song make em never forget  
don't promise if you can't deliver  
how you figure  
now i'm steaming I got you tripping  
in your scheme- what

*[Chorus fade out..]*
