(Uh, Damn)
I had someone before
That I thought I loved but I was young and I didn't
know
I let her hurt me and work my nerves to the bone
Jerk me, find another, and push me along
But it taught me one thing
That love is deceived
You got that phony love where you giving and receiving
But things are different now
I put that all behind me
I'm sure this time, that

I (I) think I really know what love is now
How it would get ya, how it looks, how it sounds
And how it makes you feel when you finally found
somebody special
Now (I) think I really know what love is now
And how it makes you smile when you down and out
And the world treats you cold
It's easier when you've found somebody special

Everything, everything, everything, will make you smile
When you find somebody to hold you
Don't you know, don't you know, don't you know would
never lie
It's easier to breathe when you meet somebody
Who makes you laugh, who makes you glad
Glad that you didn't just give it up
Somebody that you comfortable to live it up with
What I got is what I'm missing
And oohhh what I'm feeling

I (I) think I really know what love is now (what love is
now)
How it would get ya, how it looks, how it sounds (hey)
And how it makes you feel when you finally found
somebody special (how it makes
you feel when you found somebody, hey)
Now (I) think I really know what love is now (what love is
found)
And how it makes you smile when you down and out

(hey)

And the world treats you cold (treats you cold)
It's easier when you've found somebody special

All I ever wanted was someone to trust (hey)
And what I found was sooooo real (baby)
And now I really feel like I'm a friend of love
(Ooh) And this is what I believe in
And I ain't letting go
No, no, no, no, no
I'll keep holding on
Strong, strong, strong, strong, strong
Things are different now
The drama is behind and I feel this time (yeah)

I (I) think I really know what love now (what love is now)
How it would get you how it looks how it sounds (how it
looks how it sounds)
And how it makes you feel when you finally found
somebody special (finally
found somebody special hey)
Now (I) think I really know what love is now (everyday
loving me, next to me
baby)
And how it makes you smile when you down and out
And the world treats you cold (hey)
It's easier when you've found somebody special
(Everything I want and I need)

I (I) think I really know what love is now
How it would get you how it looks how it sounds (how it
makes you do types of
things that you never seen yourself doing)
And how it makes you feel when you finally found
somebody special
Now (I) think I really know what love is now
And how it makes you smile when you down and out
And the world treats you cold
It's easier when you've found somebody special
(Everything that you want and need you got in your
pretty baby)
(Ah, oh baby)
