

Tyrese "Takeover"

Visit "[Takeover](#)" on MotoLyrics.com

I met this girl
Baddest girl in whole wide world, it seemed like
I say, I say what's up?
She looked like me with a frown
And say "not right now!"
I said "b**** I'm Tyrese!
What a f****"
And then she said
Well, I...I'll tell what she said:

She said, you picked the bad time
Cause I just broke out with my man.
She said I'mma be single for a while
Cause I can't get my heart broke again
And me ooohh girl, I understand
I've been there before, and I can pretend
I had to take my time, before I went back
And gave my heart to a woman like that
And I know you don't want a man, baby
But I'm gonna be here for a while
And I know you've been through a lot lately
And I wanna make you smile!

Chorus:

And I'm here to take over,
Baby you don't have to worry no more!
And I'm here to take over,
I'mma make it easy, you can trust me baby!
And I'm here to take over,
Girl, I'mma show you that I'm that man
Baby, turn the page, I'm here to save the day
You don't have to worry, girl I'm here to take over!

Maybe, we can take it slow,
Tell me where you wanna go!
Got plans and I can take control
But not unless you say so (Not unless you say so)
Baby I know that you've been hurt,
And baby I'm here put in work
Baby I got it, you don't even gotta worry about it
Girl I'mma take care of you!
Yeah, and I know you don't want a man baby

But I wanna be here for a while
It doesn't matter...been lately...
Now baby I'm here!

Chorus:

And I'm here to take over,
Baby you don't have to worry no more!
And I'm here to take over,
I'mma make it easy, you can trust me baby!
And I'm here to take over,
Girl, I'mma show you that I'm that man
Baby, turn the page, I'm here to save the day
You don't have to worry girl I'm here to take over!

(Ahh ahh ehh) Take over, girl get over, yeah take over!
Let me take over...

You've been looking for a man to love you right, girl
Look no more, cause baby I'm your type, girl
Don't gotta worry 'bout no bullshit for me
I'mma give you everything you want, and everything
you need!

Chorus:

Oh, Baby you don't have to worry no more!
And I'm here to take over,
I'mma make it easy, you can trust me baby!
And I'm here to take over,
Girl, I'mma show you that I'm that man
Baby, turn the page, I'm here to save the day
You don't have to worry girl I'm here to take

Outtro:

Girl, let me take over
All the things they would'nt do, I wish you're let you
baby
Girl, let me take over
Ain't no need for anything, all you gotta do is call me
(Girl, let me take over)
Just trust me babe, you can trust me babe
I got your baby, I got your baby!!

Oooohhhooo, ohh babe...

(Beat rides out)
