You probly shoulda called it quits  
After the last stupid thing I did  
But you never gave up on me...

And I'd be foolish if I let u go cuz  
I kno that I can work your nerves  
And I don't always put you first  
I been trippin, now I'm repentin  
Girl I promise I'm gon change

People think we're crazy, cuz they see us fightin  
Just me and u baby, that's just how we ridin  
I can't worry bout what they say no cuz it's all about you  
baby  
But what if I told ya, game day is over  
Better yet showed ya cuz I kno I owe ya  
For every time that I didn't treat you rite, you stayed by  
my side

It took a minute but I finally found the one  
All my homies tried 2 tell me that it couldn't be done  
but  
You put up with me, u put up with me  
I kno that I'm a lot of work  
And I done done my share of dirt but  
You put up with me, girl I love u cuz u put up with me

I kno they be all in ur face, wishin they could take my  
place  
And on them days when we fight, I kno the thought  
runs through your mind  
(That) somebody else will do you betta, so why the hell  
are we together?  
But then we make up, and then we rite back  
Back in love, it's all good

People think we're crazy, cuz they see us fightin  
Just me and u baby, that's just how we ridin  
I can't worry bout what they say no cuz it's all about you  
baby

But what if I told ya, game day is over  
Better yet showed ya cuz I kno I owe ya  
For every time that I didn't treat you rite, you stayed by  
my side

It took a minute but I finally found the one  
All the homies tried 2 tell me that it couldn't be done  
but  
You put up with me, u put up with me  
I kno that I'm a lot of work  
And I done done my share of dirt but  
You put up with me, girl I love u cuz u put up with me

For all the times that (I), made you (cry)  
And every time I didn't have to but I told you (lies)  
Here's a ring with enough carats to take away the pain I  
caused ya  
You had every rite to leave instead you stuck it out with  
me girl  
Forgive me for the wrong I've done, I told you baby  
your the one

It took a minute but I finally found the one  
All the homies tried 2 tell me that it couldn't be done  
but  
You put up with me, u put up with me  
I kno that I'm a lot of work  
And I done done my share of dirt but  
You put up with me, girl I love u cuz u put up with me

(You put up with me, you put up with me)

(You put up with me, you put up with me)

(Hold)

You probly shoulda called it quits  
After the last stupid thing I did  
But u never gave up on me...
