I've seen time pass by  
Summer days to winter nights  
My smiling face to bitter eyes  
I've seen time go  
I look back and wonder why  
I didn't realize the times  
Change as fast as birds can fly  
But now I know

Nothing Lasts Forever  
Nothing we do can hold all this together  
Nothing Lasts Forever  
But it's so hard to say goodbye

I remember carefree days  
Swimming in the ocean waves  
The future was an open space  
When we were young  
We never thought our lives would change  
Now they seem a world away  
Youth is lost on youth they say  
And now I've learned

Nothing Lasts Forever  
Nothing we do can hold all this together  
Nothing Lasts Forever  
But it's so hard to say goodbye

Hold on to all we had, don't let me go  
Hold on, Hold on, Don't let me go

Nothing Lasts Forever  
Nothing we do can hold all this together  
Nothing Lasts Forever  
But it's so hard to say goodbye
