My back's against the wall  
I've lost control  
I'm out of step  
I'm shivering in my soul  
I won't let it go down like this

You pass me by like nothing but a ghost  
I've been pushed around  
By the one I love the most  
I won't let it go down like this  
I won't let it go without a fight

You'll see

This is where it ends  
Do you believe me?  
I'm not backing down again  
Do you believe me?  
So this is the end

The shuddered shaken floorboards sway below  
My ear pressed hard against the bedroom door  
How could it have come to this?  
Broken glass and broken voices shake my bones

Broken hearted  
I can't take this anymore  
It never should have come to this  
I won't let this go without a fight

You'll see

This is where it ends  
Do you believe me?  
I'm not backing down again  
Do you even hear me?

I'm not someone you can ignore  
It's time to even up the score  
Won't stop until I've won this war  
So this is the end (x2)

But I can't let this go

This is where it ends  
Do you believe me?  
I'm not backing down again  
Do you even hear me?

I'm not someone you can ignore  
It's time to even up the score  
Won't stop until I've won this war  
So this is the end
