I'm still here among these walls, I'm set apart in my jail  
I feel like kept in the dark  
Hey you please give me a help  
I ask you only a cigarette, why don't you  
Give me a sign?  
I'm the lord, the lord for you,  
I'm the devil in the mirror, are you afraid...  
Afraid of me?  
I really swear to tell the truth, the ache here in my brain  
is the worst that  
I've ever felt

When I will be all alone at the bedside of Death  
I'll tell true God that you have set me apart from the  
world

You conspire against myself, why don't you realize that  
the Others  
Make fun of you?  
I'm here for your science,  
I'm glad for this  
But God sent me to you,  
You will help me

This is my sick brain... it hurts  
I told you  
You are my jailers, fools!  
Oh my disciples save our hidden place  
We wait for tonight, live for the escape  
Wreck their lives as they did this to me  
We wait for tonight, live for your life  
They don't believe me, this pain's killing me (I have to  
go! )  
We wait for tonight, we'll set you free  
Oh my friends please save this brother

When I will be all alone at the bedside of Death  
I'll tell true God that you have set me apart from the  
world

This pain like cancer growing in my brain

They will hang on my... lips

Oh my disciples save our hidden place  
We wait for tonight, live for the escape  
Wreck their lives as they did this to me  
We wait for tonight, live for your life  
They don't believe me, this pain's killing me (I have to go! )  
We wait for tonight, we'll set you free  
Oh my friends please save this brother

When I will be all alone at the bedside of Death  
I'll tell true God that you have set me apart from the world... shit!
