Give me a dirty job, I'm defected
Give me a new disease so infected
All the smog I need the city air is green
And all I wanna be is out of it outta touch

I don't listen outta touch, I don't care outta touch
I pissed it away outta touch, I'm out of hand

Don't wanna work for the man, hey
And I'm don't with the corner man hey
I'm on a boat alone with no river to go
And no one knows 'cuz the raft is gone

I'm out of it and I don't care out of touch I'm out of
hand
