It's You

Pa, pa pa, pa pa, pa rup [2x]

I look inside the crystal ball of desire
and know why rapid beats my heart
i see the spark, I feel the flame of the fire
letting me know love wants to start

[refrain]

No more playing around
no more waiting around
for the special one to come
woh, no more wearing a frown
no more tears coming down
'cause I know what I want
and I want what I know

[chorus]

It's you
nobody needs to tell me so
tt's you, it's you
you're that angel sent from heaven above
it's you
nobody needs to tell me so
it's you, it's you
you're that angel sent from heaven above
for me, for you and you for me

If only I had not waited, I would have picked the wrong
one
if only I had not waited, my life would be undone
if only I had not waited, I would have picked the wrong
one
if only I had not waited for you

[ad lib]

I look behind and what I sight is the mire
so very lonely was my heart
mmm, I look ahead, I hear the sound of the choir (the
choir)

singing that love will never part

[refrain 2]

No more hearing the sound
of the rain coming down
no more I can't see the sun
woh, no more hurting for fun
'cause the moment has come
when I know what I want
and I want what I know

CHORUS

It's you
nobody needs to tell me so
it's you, it's you
you're that angel sent from heaven above
it's you
nobody needs to tell me so
it's you, it's you
you're that angel sent from heaven above
for me, for you and you for me

If only I had not waited, I would have picked the wrong
one, hmm
if only I had not waited, my life would be undone
if only I had not waited, I would have picked the wrong
one, hoh
if only I had not waited for you

It's you
nobody needs to tell me so
it's you, it's you, it's you
you're that angel sent from heaven above
it's you
nobody needs to tell me so
it's you, it's you, it's you
you're that angel sent from heaven above

[coda]

Pa pa pa pa pa, pa rup [2x]
Pa
