Soul wind blow  
Soul wind blow  
Under her skin I hear her love him  
Under her love at peace within  
Under her hands that which I'm needing  
Under her eyes I glimpse her love

Soul wind blow  
Soul wind blow  
Soul wind blow  
Soul wind blow  
Under her time I think I'm within  
Under her lie I hear her love  
Under her love I hear nothing  
Under her eyes I disappear

Soul wind blow  
Soul wind blow  
Soul wind blow  
Soul wind blow  
Under the sky I'm pointing there  
Under the power, baby

You say run away  
Throw me away  
Throw me away

In the drift we've come  
In the drift we go  
In the drift we've come  
In the drift we go

Soul wind blow  
Soul wind blow  
Soul wind blow  
Soul wind blow  
Under her skin I feel loving  
Under her sign there is no fear  
Under her hands, that which I'm holding  
Under her eyes I disappear

Soul wind blow  
Soul wind blow  
Soul wind blow  
Soul wind blow

In the drift we've come  
Soul wind blow  
In the drift we go  
Soul wind blow  
In the drift we've come  
Soul wind blow  
In the drift we go  
Soul wind blow  
In the drift we've come  
Under her  
In the drift we go  
Under her  
In the drift we've come  
Under her  
In the drift we go  
Under her  
Soul wind blow  
Soul wind blow  
Under her hands  
Soul wind  
Some day throw me away  
Fade it away  
Throw it away

In the drift we've come  
In the drift we go  
In the drift we've come  
In the drift we go  
In the drift we've come  
Soul wind blow  
In the drift we go  
Soul wind blow  
In the drift we've come  
Soul wind blow  
In the drift we go  
Soul wind blow  
In the drift we've come  
In the drift we go
