Ready

Nothing was taking  
So I never really took  
Nothing was shaking  
But baby you really shook  
No one was waking  
Until you kept me up  
If your heart wants breaking  
You know I won't see you stuck

The pain never felt so good  
To feel so bad  
I love you  
Love you like mad  
I love you  
I love you like mad

No one worth knowing  
Has ever known a thing  
No one who ever knew how  
Could ever teach the world to sing  
You are the only one  
I ever listen to  
So don't wait for me to ask  
Tell me what to do

The pain never felt so good  
To feel so bad  
I love you  
I love you like mad  
Love you  
I love you like mad  
Love  
Love you like mad

Don't worry baby  
If you're in the spotlight  
I'll do the maximum time  
For you tonight  
You know that we're not crazy

Well, maybe just a touch  
Some sweet delight, a sugar rush  
In some cases cost too much

Love you  
I love you like mad  
Love you  
I love you like mad  
Love you  
Love you like mad  
Love you  
Love you like mad

Love you love you like mad  
Love you love you like mad  
Love you love you like mad  
Love you love you like mad  
Love you love you like mad  
M-O-M under the tree  
I am going M-A-D
