Hey, sister love, hey, sister sun  
Hey, oh my love, you turn me around tonight  
Hey, sister love

Save my soul, save my soul  
Hold on to love, hold on to love  
Love won't let you go, love won't let you go  
Hold on to love, see the sunshine in her soul

Hey, sister love, hey, see the sun aground  
She come likes carnival, she is a big wheel  
She turned my head around, turn my head around

She is the speedway  
She is the slipstream  
She is coming 'round

Hold on to love, hold on to love  
Love won't to let you go  
Hold on to love, hold on to love

See the sunlight in her soul  
See the sunlight in her soul

She is the gun fire, she is the car crash  
She is the avalanche, she is the thunder  
She is the waves and she pulls me under

I love you 'cause I need to, not because I need you  
I love you 'cause I understand, that God has given me  
your hand  
Holds me in a tiny fist, and still I need your kiss

Hold on to love  
See the sunlight in her soul  
See the sunlight in her soul, yeah
