was drinking some wine... and it turned to blood  
What's the use of religion... if you're any good  
I know i'm weedkiller honey... and you're sugar  
If you're the prosecution... i get away with murder  
If you were ice... i'm water  
And with your telescope... i can see further  
We're binary code... a one and a zero  
You wanted violins... and you got nero  
You're gravity... searching for the ground  
You're silence... searching for a sound  
Your heart is aching... your heart is my home  
It's fascinating... i know i'll never be alone  
I'm rippin' the stitches  
You got two hands to rub  
I'm in the ditches  
Of someone else's love  
Love is when i lie  
Love puts the blue back in my eye  
Love will come again  
I'll be gone again... again  
If you're hunger... baby let me feed it  
If your heart is full... baby let me bleed it  
And happiness is for... those who don't really need it  
You love me... too much  
You always loved me... too much  
When i was rippin' the stitches  
You got two fists to rub  
I'm in the ditches  
Of someone else's luck  
Love is when i lie  
Love puts the blue back in my eye  
Love has come again  
I am gone again

Love's got to be with the weak  
Only then love gets a chance to speak  
Love will come again  
I'll be gone again... again  
I... i can't escape myself  
I hear you talk  
Feeling nothing  
I fear nothing

Feel....  
I can hear so much  
Fear nothing  
I feel so much  
Fear... nothing  
Love has come again  
I am gone again  
Love is the end of history  
The enemy of misery  
Love has come again  
I am gone again  
Love is justice, not charity  
Love brings with it a clarity  
Love has come again  
I'm alive again  
Alive...  
I am alive, baby i'm born again and again  
And again, and again and again and again  
Again
