She, won't get off the phone, she won't leave me
alone
When I'm talking to that guy
She, can be a real nightmare, gets me to do her hair
And says it never turns out right
But then I put on a face, she can tell
Cause she knows me so well

Chorus

Who's has been my closest friend, someone who will
be there till the end
My sister, sister
Deeper than the deepest sea, no one loves you like a
family
My sister, sister

She, reads my diary, she borrows clothes from me
And I never get them back again
And she (and she), locks the bath room door, says five
minutes more
And now and then run still not in
And sometimes we fight, every family does (oh yeah)
But that can't change our love

Who's has been my closest friend, someone who will
be there till the end
My sister, sister
Deeper than the deepest sea, no one loves you like a
family
My sister, sister

To fell and break the good times, who helped me
through the hard times
Who bring me down to roof, remind me what's in
coming
And who comes first? Who comes first?
Gotta tell me who I'm talking 'bout
My sister, sister
(Oh yeah) and who comes first? Aren't no doubt
about it
My sister, sister

She, watches out for me, I know she'll always be
By my side (by my side)

Who's has been my closest friend, someone who will
be there till the end
My sister, sister
Deeper than the deepest sea, no one loves you like a
family
My sister, sister
Who's has been my closest friend, someone who will
be there till the end
My sister, sister
Deeper than the deepest sea, no one loves you like a
family
My sister, sister
