

Midnight Oil "I'm The Cure"

Visit "[I'm The Cure](#)" on MotoLyrics.com

Tell all your friends I'm the cure
Tell them again and again
Watching the walls, spinning in doors
I can bring you peace of mind

Use me whenever you please
Sweeter than sweet memories
Every thing's neat, avoiding the heat
I can give you peace of mind

All this pressure I can't handle

Every thing else becomes dim
You're so much better than them
Waiting around for something to happen
Bring you this instant relief

Kilo pascals in my finger
God is hiding in this teacup
